New ID cards are being issued for all members of the Point of Service (POS) Plan for 2017. POS Plan members can use this card for updated billing and contact information if they have not yet received a new card. The member ID number should not have changed from 2016 to 2017. However, members should present their new card when seeking services on or after January 1, 2017. Billing information may have changed and the medical provider or pharmacy will need to update their records to ensure timely payment.
